Dr. James E. O'Neill
Assistant Archivist for Presidential Libraries (NL)
National Archives and Records Service
Washington, D.C. 20408

Dear Dr. O'Neill:

In the past the Central Intelligence Agency occasionally has identified records as being of potential interest to Presidential Libraries. Moreover, on two occasions we transferred records to the National Archives and Records Service specifically for a Presidential Library--once for the Kennedy Library in 1964, and once for the Johnson Library in 1969. The Kennedy Library transfer was covered by a CIA transmittal to NARS dated 9 March 1964. This transmittal indicated in Item 14 on its list of attachments that certain additional records would become available later.

For your information, we discontinued some time ago the practice of identifying records specifically for Presidential Libraries. Accordingly, in conformance with current approved procedures, the additional records referred to above will be made available through the normal process of transferring our permanent records to the National Archives.
